Tinder Newsroom

Introducing Tinder U

UPDATE: Tinder U is available on Android and iOS devices in the US and the UK. Enroll today!

Earn your swipe cred.

Get ready for the best semester of your life. Tinder U is a new feature that makes it easier to connect with other students around you - putting their profiles first as you swipe. Need a study buddy? Not a problem. Coffee date on the quad? We've got you covered. Freshman year and you don't know a soul? This is your ticket to the coolest crowd on campus. Let's face it—it doesn't get any classier than this.

Show your colors. Swipe on your classmates. Keep your Tinder game on campus.

And if you want to date outside your campus, we've got you covered there, too. Tinder U allows you to swipe on students at nearby schools. That's right, get ready to kiss those crosstown rivalries goodbye. ;)

Knowledge is power.

Here's How It Works:

1. Once you're on campus, log in to Tinder and give us your .edu email address
2. Then check your email and tap the verification button
3. Now you're in Tinder U! Swipe, match, and message as usual—you know the curriculum—it's Tinder 101

Tinder U is rolling out on iOS devices at 4-year, accredited, not-for-profit schools in the U.S. that deliver courses in a traditional face-to-face learning format.
